Included in this package are the new logs for the Laser-60 AT. There are three logs as shown below.

Place the logs in the following sequence. The flat side of each log should be facing towards the middle, and the hole facing down.

First place Log B on the right side pin.

Second place Log A on the front pin, with the top branch of Log A resting on the grove of Log B.

Finally place Log C on the back left pin, with the top of Log B resting on the grove of Log C.
